---

The purpose of our SPARTAN PRIDE Recognition Program is to celebrate and recognize excellence in student and staff leadership. It is part of our long-term goal to recognize leadership in all aspects of a school organization and our commitment to creating a learning and work environment that encourages positive outcomes for all students and staff.

We are so proud of the exemplary teachers and exceptional students that were honored tonight. Each one of them are outstanding role models and often go above and beyond what is expected of them. They are highly respected for their character contributions such as trustworthiness, compassion, work ethic, thoughtfulness and positive attitude.

We are grateful that they are a part of Wayne Local School District as they create positivity and success in our schools. Congratulations!
